

Santa Claus is coming to Town

He will be the Guest of Honour at The **CSC Children's Christmas Party** on Sunday, December 17, 2000.

The Club has received this message from Santa by e-mail:

"Dear Children,

Hope you've been good this year. You have? So, I'm bringing sacks and sacks of toys and goodies and stuff, but only children under 12 years old are allowed to participate. Get your Dads and Mums to register your names now at the CSC Secretariat."

Santa Claus. Ho! Ho! Ho!

Here is a message from the Ceylon Sports Club:

Dear Parents,

Prices are only \$20/- per member's child, and \$30/- each for members' nephews, nieces, grandchildren."

Forms and payments reaching the Club by Saturday December 9, 2000 will receive a reduction of \$5/- (i.e., \$15/- for member's child and \$25/- for others)

Closing date for registration will be Sunday December 12. Registration Forms are available at the Secretariat.

Feedback from Mr. Sivasubramaniam (September 13, 2000)

" Too often, people are waiting/willing to criticize, but when good work is done, few are willing to compliment the hard working officials who volunteer their time and services-when they could very well be with their families. The CSC web page has been updated and the results of the match played on Sunday can be seen. My compliments to the persons in charge. It was the first time I watched the CSC team play for some time,(it) brought back the great days of the CSC domination of the game. Here were a few stars, but 11 players, playing as a team in which each and every player did his part."

CSC 'Coffee Table' Book

Would you like to contribute an article or two, of historical interest? A book with its history, sports, personalities (past & present), activities, programmes, etc., is being envisaged. Members who have old photographs, or items of momentous or epoch-making news that would be of relevance to the CSC, are kindly requested to make them available to the Club. Please contact Cyril. All items will be returned.

More Proposed Renovations

The Club is embarking on an ambitious plan to draw up a master plan to upgrade our premises in phases.

Phase I: New Covered Terrace

A new Covered Terrace outside the newly renovated Function Hall on the 2nd level will provide a panoramic view of the field. The covered terrace will also double up as the proposed extended roof over the existing bar / outer lounge area which will also extend further in front of both wings.

* * * * *

Phase 2: New Entrance

The existing entrance which had been affected by the widening of Balestier Road, has lost its role. (It is now used only on occasions). The ground floor entrance which is more commonly used, will be upgraded:

Creating a gateway at road level.

Providing a covered link way.

Widening the existing stairway.

Upgrading the wall of the entrance with granite finishes and lighting, with a grand signage.

Erecting a fountain which will create a focal point.

* * * * *

Phase 3-Interior Decoration to the Bar

Interior of the bar will be upgraded. One suggestion is to configure the bar or redecorate the interior to a more modernized style with lighting to create a lively ambience.
