

*in ample evidence in the Club. The decision to change the Bar staff's uniforms, the swiftness in changing the Jackpot machines based on members' feedback, and the change of the Inner Lounge Furniture, the installation of Cable TV, the newly renovated Function Hall, the determination and hard work to get these Amendments to the Constitution passed today, are just some examples of the 'Can-Do' spirit that prevails in the Club. All these were done over the past two months since our last AGM.*

*One can never underestimate the hard work that goes behind all these decisions, that involve my committee members, our staff and member-volunteers.*

*This gesture is sincere as long as this is reciprocated.*

*My dear members, you can play a very important role here to ensure that only good and able people continue to serve you.*

*On our newly renovated Hall, we thank Mr. S.M. Vasagar, our first recipient of the CSC Lifetime Achievement Award, for officiating at the Opening Ceremony earlier tonight.*

*The Hall has seen a tremendous boost in patronage. It is now used for functions by members almost every weekend. So, dear members, if you wish to use the Hall, please contact the Secretariat.*

*Over the past two months, besides the projects I have mentioned earlier, we have:*

*a. Installed new Cricket Nets, built at a cost of above \$10,000.*

*b. Installed Flood Lights for cricket training at night. We have made this available to our own players and have offered this facility to the other Clubs at some cost. This is probably the only one available in Singapore at this moment."*

*" Mr Raveentheran then proceeded to introduce on stage, the people who have volunteered their services to the Club. He continued, "They deserve our thanks and appreciation. Let us give them a round of applause."*

*On a final note, the President thanked everyone present for their presence that night, the Master of Ceremonies, Mr. Matt Singh, the Chairman, Social & Cultural Committee, Mr Shreepathy, the House Committee Chairman, Mr. T. Ravendran and their teams for what turned out to be a very successful function.*
